## TECHNICAL DATA SHEET MOD. OTV 60 E

|  |        |              |
|--|--------|--------------|
| MODEL                                    |        | OTV 60/E     |
| Bench model                              |        | *            |
| Floor model                              |        |              |
| Ventilation                              |        | Forced       |
| Capacity                                 | LT.    | 60           |
| Overall dimension width                  | mm.    | 600          |
| Overall dimension depth                  | mm.    | 520          |
| Overall dimension height                 | mm.    | 840          |
| Net weight                               | kg.    | 55           |
| Chamber width                            | mm.    | 400          |
| Chamber depth                            | mm.    | 385          |
| Chamber height                           | mm.    | 400          |
| Minimum working temperature              | °C     | + 5°C > T.A. |
| Maximum working temperature              | °C     | 250          |
| Maximum variation at                     | 150 °C | + - 1        |
| Safety according DIN 12880 Class 3.1     | .      | .            |
| Provided shelves                         | Nr.    | 1            |
| Maximum number of shelves                | Nr.    | 4            |
| Electronic Thermo regulator              |        | serie        |
| Chamber made in stainless steel AISI 304 |        | .            |
| Body made of sheet steel                 |        | .            |
| One leaf door                            |        | .            |
| Two leaf door                            |        |              |
| Silicon seal                             |        | .            |
| Main supply                              | Volt   | 230 x 1      |
| Main frequency                           | Hz     | 50/60        |
| Power consumption                        | Watt   | 1.500        |
